Ayres argues that religion has a vital role to play in addressing the ecological crisis. She says that religion can provide us with a sense of meaning and purpose, and can help us to connect with the natural world. She also argues that religious education can teach us how to live sustainably and how to care for the Earth.

Inhabitanace is divided into three parts. The first part explores the relationship between religion and ecology. The second part examines the

different ways that religious education can be used to teach about ecology. The third part offers a vision for the future of ecological religious education.

Ayres writes in a clear and engaging style. She draws on a wide range of sources, including scripture, theology, and the social sciences. She also provides many examples of how ecological religious education is being practiced in different settings.

*Inhabitation* is a timely and important book. It offers a unique perspective on the relationship between religion and ecology, and it provides practical guidance for educators who want to teach about ecology in a religious context.

### **Praise for *Inhabitation***

"*Inhabitation* is a groundbreaking book that offers a new way to think about the relationship between religion and ecology. Ayres argues that religion has a vital role to play in addressing the ecological crisis, and she provides a clear and compelling vision for how religious education can be used to create a more sustainable and just world." - Bill McKibben, author of *Eaarth*

"*Inhabitation* is a must-read for anyone who is interested in the future of religion and the environment. Ayres offers a unique and inspiring vision for how we can use religious education to create a more sustainable and just world." - Mary Evelyn Tucker, Yale Forum on Religion and Ecology

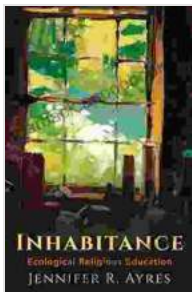

"*Inhabitation* is a timely and important book. Ayres provides a clear and compelling vision for how religious education can be used to address the ecological crisis. This book is essential reading for anyone who cares about the future of our planet." - David Orr, Oberlin College
